

— ON-SET REFERENCE

THE UN-SILO SHOOT DECK.

12 scenes. Each page is one scene. Left side: script cue + Excalidraw drawing order.
Right side: Remotion preview (16:9 main + 9:16 short). Keep this open on monitor two
during the shoot.

THE 5 QUESTIONS

SCRIPT CUE

0:00 - 0:45

MODE

Cold open • Camera

WHAT YOU SAY

"I'm going to ask you five questions. If you can't answer any of them in under sixty seconds, keep watching."

Then list them rapid-fire. Hold a beat after Q5.

DRAW ON CAMERA (EXCALIDRAW)

- Title appears first (cyan, Virgil)
- Questions 1-5 as you SAY each
- Magenta clock with "60 sec" label LAST

FILE unsilo-S01-five-questions.excalidraw

5 QUESTIONS

If you can't answer these in 60 seconds, you're flying blind.

1. What was last week's blended MER?
2. What did one customer cost last quarter?
3. Which channel has the best contribution margin?
4. What's CAC payback in months, by source?
5. What % of MQLs actually closed?

THE INNOVATIVE NATIVE

5 QUESTIONS
If you can't answer these in 60 seconds, you're flying blind.

1. What was last week's blended MER?
2. What did one customer cost last quarter?
3. Which channel has the best contribution margin?
4. What's CAC payback in months, by source?
5. What % of MQLs actually closed?

FOR SHORTS

Same scene, 9:16. Use this layout when cutting Clip 01 (The Hook).

THE STACK MAP

SCRIPT CUE

2:30 - 7:00

MODE

Screen share · Excalidraw

WHAT YOU SAY

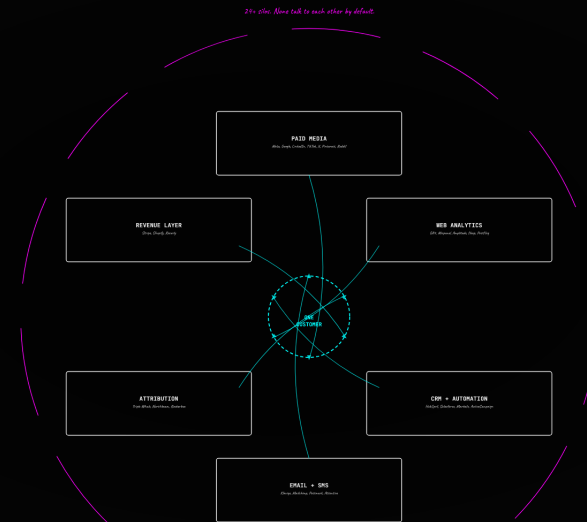

"In the middle, one customer. One human. One purchase decision. Around them, the stack. Six functional zones, 24 silos. None talk to each other by default."

DRAW ON CAMERA

- Customer circle (cyan, dashed) FIRST
- 6 zone rectangles clockwise, as you call out each
- Arrows from each zone to the customer
- Magenta fence around all 6 LAST (punchline)

FILE unsilo-S02-stack-map.excalidraw

FOR SHORTS

Not currently extracted as a standalone short (intro-only).
Possible bonus clip.

MER FORMULA BREAKDOWN

SCRIPT CUE

7:00 - 8:00

MODE

Screen share · Excalidraw

WHAT YOU SAY

"The formula is dead simple. Total revenue divided by total marketing spend. But watch what happens to the inputs."

DRAW ON CAMERA

- Formula across center FIRST
- Question marks under each input AS you call them out
- "3 different MERs from same week" magenta callout LAST

FILE unsilo-S03-mer-breakdown.excalidraw

MER BREAKDOWN

$$MER = Total\ Revenue / Total\ Marketing\ Spend$$

Total Revenue

Stripe? ?
Shopify? ?
Refunds? ?
Chargebacks? ?
Trial conversions? ?
First-paid invoice? ?

Total Marketing Spend

Just paid media? ?
Tool subs? ?
Salaries? ?
Agency fees? ?
Sales comp? ?

3 different MERs from same week.

THE INNOVATIVE NATIVE

FOR SHORTS

Optional B-roll for Clip 02 (ROAS over-attribution).

ROAS OVER-ATTRIBUTION

SCRIPT CUE

8:00 - 9:00

MODE

Screen share · Excalidraw

WHAT YOU SAY

"Three platforms each claim the hundred bucks. Add up your channel ROAS, you'll see three hundred dollars. From a hundred dollars of real sale. 2 to 3x over-attribution is the NORMAL case."

DRAW ON CAMERA

- Bottom "ACTUAL SALE: \$100" box FIRST
- 3 platform boxes (Meta, Google, YouTube) above
- Arrows from each platform down to actual sale
- "\$300 reported" magenta callout LAST. This is the punch.

PUNCH MOMENT

ROAS OVER-ATTRIBUTION

FOR SHORTS

Primary visual for Clip 02 ("Your ROAS adds up to more than your revenue"). Highest-stopping-power viz in the set.

SCENE 05 / 12

THE KNIFE FIGHT

SCRIPT CUE MODE

12:00 - 13:30 Screen share · Excalidraw

WHAT YOU SAY

"Same word. Marketing means one thing. RevOps means another. Both teams report up using that word. Leadership thinks they're hearing the same thing. They're not."

DRAW ON CAMERA

- Marketing / RevOps headers + table rows pre-loaded
- You draw a big jagged line splitting the columns LIVE
- Add "Same word. Different number." across the line in Virgil

FILE unsilo-S05-knife-fight.excalidraw

DEFINITIONS KNIFE FIGHT

TERM	MARKETING	REV OPS
Lead	Filled a form	Known company + IDP #11
MQL	Score > 5	Score + #11 + recency + SDM approval
SQL	Marketing passed it	Sales accepted + worked it
Opportunity	Any deal in CRM	Stage 3+, with BABT
Customer	Paid once	Post trial + active sub
Attribution	Last non-direct click	CRM "Lead Source" field

Same word. Different number.

THE INNOVATIVE NATIVE

FOR SHORTS

Primary visual for Clip 03 ("MQL vs SQL: The Knife Fight").

THE 64% GAP

SCRIPT CUE

13:30 - 15:00

MODE

Screen share · Excalidraw

WHAT YOU SAY

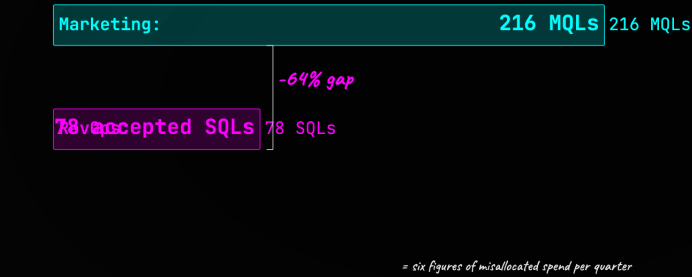

"Two hundred sixteen vs seventy-eight. Same October. Same CRM. Sixty-four percent gap. Six figures of misallocated headcount and spend per quarter."

DRAW ON CAMERA

- Cyan bar "Marketing: 216 MQLs" FIRST
- Magenta bar "RevOps: 78 SQLs" BELOW it
- Hand-drawn bracket with "-64% gap" LAST
- Cost line revealed at the very end

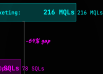

FILE unsilo-S06-64-gap.excalidraw

THE 64% GAP

THE INNOVATIVE NATIVE

THE 64% GAP

FOR SHORTS

Primary visual for Clip 04 ("The 64% Gap"). Specific numbers stop the scroll.

THE 4-TAB AUDIT

SCRIPT CUE

16:00 - 17:00

MODE

Screen share · Excalidraw

WHAT YOU SAY

"One spreadsheet. Four tabs. Tools. Flows. Identifiers. Definitions. If it's not on one of these tabs, it isn't real."

DRAW ON CAMERA

- 4 tabs pre-loaded; TOOLS tab active (cyan fill)
- Header row of the active tab pre-loaded
- You add 2-3 example rows LIVE as you talk through the audit

FILE unsilo-S07-four-tab-audit.excalidraw

FOR SHORTS

B-roll option for any Phase 1 audit short.

THE IDENTIFIER GRAPH

SCRIPT CUE

17:00 - 18:30

MODE

Screen share · Excalidraw

WHAT YOU SAY

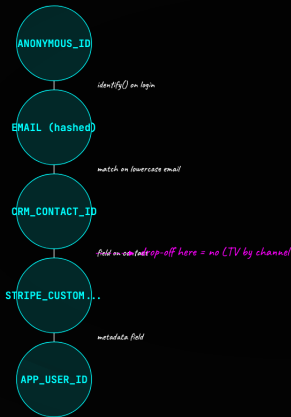

"Every system has a different way of identifying a person. If you can't translate one to another, you can't compute LTV by channel. This is the audit nobody runs."

DRAW ON CAMERA

- 5 ID nodes pre-loaded (anonymous, email, CRM, Stripe, app user)
- Draw the edges with join condition labels LIVE
- Magenta dashed arrow on the weakest link ("drop-off here = no LTV") LAST

FILE unsilo-S08-identifier-graph.excalidraw

IDENTIFIER GRAPH

IDENTIFIER GRAPH

FOR SHORTS

Primary visual for Clip 05 ("The identifier audit nobody runs").

THE 5-LAYER SPINE

SCRIPT CUE

19:00 - 22:30

MODE

Screen share · Excalidraw

WHAT YOU SAY

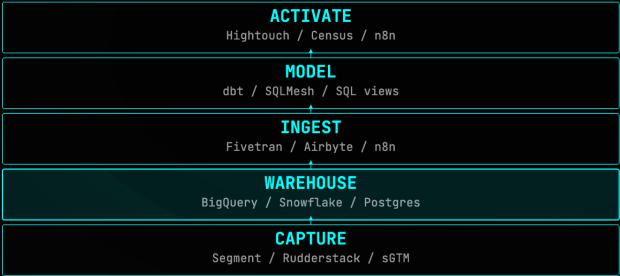

"Capture, warehouse, ingest, model, activate. The warehouse is the one place everyone reads from. You don't need Snowflake. Postgres is fine."

DRAW ON CAMERA

- 5 horizontal layers pre-loaded, bottom to top
- Warehouse layer filled (the heart)
- You draw upward arrows between layers as you discuss each
- "The one place everyone reads from" magenta callout LAST

FILE unsilo-S09-five-layer-spine.excalidraw

THE 5-LAYER SPINE

THE INNOVATIVE NATIVE

THE 5-LAYER SPINE

FOR SHORTS

Primary visual for Clip 06 ("You don't need Snowflake").

CANONICAL SCHEMA

SCRIPT CUE

22:30 - 23:00

MODE

Screen share · Excalidraw

WHAT YOU SAY

"Five tables. dim_customer, fct_session, fct_order, fct_ad_spend, fct_touchpoint. Every metric you need can be computed from these five. Without them, you can't."

DRAW ON CAMERA

- 5 table boxes pre-loaded with column lists
- You can circle key joining columns (customer_id) live
- "5 tables. Every metric you need." magenta close LAST

FILE unsilo-S10-canonical-schema.excalidraw

CANONICAL SCHEMA

dim_customer	fct_session	fct_order	fct_ad_spend	fct_touchpoint
customer_id	session_id	order_id	date	touchpoint_id
email_hash	anonymous_id	customer_id	platform	customer_id
first_touch_channel	customer_id	gross_revenue	campaign_id	channel / campaign
lifetime_revenue	source / medium	cogs	spend	position_in_path
		channel		

THE INNOVATIVE NATIVE

5 tables. Every metric you need.

CANONICAL SCHEMA

dim_customer	fct_session
customer_id	session_id
email_hash	anonymous_id
first_touch_channel	customer_id
lifetime_revenue	source / medium

fct_order	fct_ad_spend
order_id	date
customer_id	platform
gross_revenue	campaign_id
cogs	spend
channel	

fct_touchpoint
touchpoint_id
customer_id
channel / campaign
position_in_path

5 tables. Every metric you need.

FOR SHORTS

Optional. Strong for a data-team-focused short if you want one outside the 12.

THE 8 KPIS

SCRIPT CUE

24:30 - 25:30

MODE

Screen share · Excalidraw

WHAT YOU SAY

"Eight numbers. Same formula every Monday. Same dashboard for every team. That's the bar."

DRAW ON CAMERA

- 4x2 grid of KPI cards pre-loaded
- Add the magenta callout "Same number, every team, every Monday" LAST

FILE unsilo-S11-eight-kpis.excalidraw

THE 8 KPIS

Same number, every team, every Monday.

THE INNOVATIVE NATIVE

FOR SHORTS

Primary visual for Clip 08 ("The 8 numbers your CFO actually wants").

THE CFO MONDAY VIEW

SCRIPT CUE

26:30 - 27:30

MODE

Screen share · Excalidraw

WHAT YOU SAY

"Four questions. One dashboard. Four numbers that mean what everyone agrees they mean. In the CFO's inbox before Monday standup."

DRAW ON CAMERA

- 4-row dashboard table pre-loaded
- You add green/red health bar marks LIVE per row
- Optional: circle the "< 12 months" row in magenta as the punch metric

FILE unsilo-S12-cfo-monday.excalidraw

CFO MONDAY VIEW

Question	Number	Source	Health
What did one customer cost?	CAC	fct_ad_spend ÷ fct_customer	< LTV x 0.33
How long to make it back?	Payback	CAC ÷ gross profit/mo	< 12 months
How much per \$1 spent?	MER	Stripe ÷ all spend	> 3.0 trailing 28d
Which channel actually pays?	Contrib/channel	fct_order x COGS by channel	positive at week 4

In the CFO's inbox before Monday standup.

THE INNOVATIVE NATIVE

CFO MONDAY VIEW

Question	Number	Source	Health
What did one customer cost?	CAC	fct_ad_spend ÷ fct_customer	< LTV x 0.33
How long to make it back?	Payback	CAC ÷ gross profit/mo	< 12 months
How much per \$1 spent?	MER	Stripe ÷ all spend	> 3.0 trailing 28d
Which channel actually pays?	Contrib/channel	fct_order x COGS by channel	positive at week 4

FOR SHORTS

Strong CTA visual. Pair with Clip 12 ("How long would it take you?").
